pneumatic POLISHER

BRIXER 14

■ Automotive

■ Construction industry

■ Nautical

We are pleased to introduce you our new pneumatic polisher **BRIXER 14**. It is the perfect tool for accurate polishing and finishing works on any kind of surfaces. Ideal for sectors like automotive, construction industry and nautical.

Its ergonomics and lightness added to its robustness turns it an ideal tool and easy handling, avoiding the fatigue in vertical works.

The speed control allows the adjustment to each material and surface, avoiding any the possibility of damage. Due to its pneumatic motor it can be used for long periods without overheat.

BRIXER 14 extend the range of solutions for the surface treatment in the same quality standards that Smooth Sander has been manufacturing for over 35 years, and that have placed us as a reference in the pneumatic tool sector.

Velcro-soft BACKING PAD included

TECHNICAL CHARACTERISTICS

Speed (rpm):	0-4000
Air consumption (l/min.):	227
Power (Hp):	1
Noise level (dB):	82
Weight (kg):	2,72
Vibration level (m/s ²):	<2,5
